Problem

Christies and its Artists are unable to continue collecting revenue from Art Collections that are sold. These Art Collections also lose value during bear markets
(see Page 2).

Solution

Arells proposes to build a Digital Auction House **for Christies in which Christies and its Artists continue collecting revenue from Art Collections after they are sold. These Art Collections never lose value** ***(see Page 2)*****.**

Impact & Success Metrics

- 1st Sales:
  - Christies (and its Artists) keep: 97%
  - Arells keeps: 3%
- 2nd, 3rd, 4th, (etc) Sales:
  - Christies (and its Artists) keep: 40%
  - Collector keeps: 57%
  - Arells keeps: 3%

At-a-glance

VERSION 1.0	VERSION 2.0	VERSION 3.0	VERSION 4.0	VERSION 5.0
Uses Metamask & Coinbase for NFT purchases (with Polygon as the transaction currency).	Polygon depreciated with $USDC (and other stable currencies) used for transactions.	Metamask & Coinbase wallet depreciated with a dedicated Arells wallet used for NFT purchases.	3D Digital Jewelry incorporated into the digital marketplace.	Capability of Artists & Collectors to create their own "mini-auction-houses" within Christies.
